Registration deadline is November 28th.*

The Illinois Masonic Student Assistance Program is a school-based early intervention approach for students who are having difficulty being successful in school.

The goal of the Student Assistance Program (SAP) is to identify and assist students whose behavior, attendance, health and/or academic performance indicates that they may have problems threatening their success in school.

Through the SAP process, students are directed to appropriate school or community-based services. Working cooperatively, the school-based core team and community services personnel assist the student and his/her family to receive the necessary help.

The SAP Core Team is comprised of a building administrator, two or more classroom teachers, school counselors, social workers, and a school nurse. A district central office administrator is also needed to mentor the program's development.

About the presenters: The Illinois Masonic Foundation Student Assistance Program has been providing high quality Student Assistance Program Training to educators in Illinois since 1990. Over 10,000 teachers have been trained, 450 schools served, and thousands of students helped through SAP teams and the charitable commitment of Illinois Masons.
